OWENSBORO PREPARING

Local Knights Templar are interested in plans for the annual con-clave which will be held at Owens clave which will be held at Owens boro May 21-22. The local commandry is planning to send quite a delegation. The Covington commandery has chartered a boat and wil bring about 100 Knights and about thirty ladies, who will be "housed" on the boat during the conclave. This commandery will bring Smittle's band from Cincinnati. The De Malay Commandery from The De Molay Commandery from Louisville will come on a special train, bringing the commanderies from Lebanon, Danville, Marion, and Lexington. There will be more than 500 visitors in the city.

While they would appear to be just as valuable this year as they were last, trunk line railroads in Kentucky are worth for purposes of taxation 10 per cent, less than they were a year ago, according to their own reports filed with the State Auditor, on which the State Tax Commission calculates their assessments.

MAT COHEN DEFENDS THE NEW DOG LAW

creasing the sheep production of this state, and the required protection to the industry.

Prior to the meeting of January 28, and after several conferences of the Kentucky Sheep Breeders' Association, a tentative draft of a dog law was drawn and submitted to those present at the meeting on that date, which, after some amendments by a committee appointed by the Kentucky Sheep Breeders' Association, the 1918 Kentucky Legislature crystalized into law the Act now known as the Dog Law, and among its many provisions the one that seems to peeve "Tax Payer" most is that provision placing the general enforcement of same under the Commissioner of Agriculture, and allowing the Commissioner of Agriculture, and allowing the Commissioner of the total amount collected for licenses in the various countlese of Kentucky to be used by the Commissioner of Agriculture for the general enforcement of the act.

There was fever any question in the minds of the committee who drafted this act of the total are the local or the act.

Jesse Turner, who lives two miles out on the Danville pike, had the bird of Agriculture for the general well, of Philadelphia, who is expected here today to make him a short visit before they leave. They plan a most delightful trip of globe-trotting and will go first from here to Panama, Jamacia, through Central America, spend some weeks in the interior of South America; thence to Australia, Japan, China, and will probably return via the Suez Canal and see the pyarmids and other wonders of Egypt

Bank MRS. MILLION ILL.

The many relatives and friends will be very sorry to hear of the critical illness of which is the small receive 10 cents for each deal point of the state is a large part and parcel of the state is a large part and parcel of the state is a large and realizing that the live stock industry of the state is a large and realizing that the live stock industry of the st

crease of salary out of the 5 per cent allowed for the general enforcement of the act.

Not only has the work of the Commissioner of Agriculture been increased materially as the result of the general enforcement of this law being placed under him, but he has performed this extra service without a murmur or complaint, and has not nor can be under our Constitution, receive one dollar additional salary for the extra work and responsibility placed upon him by the legislature.

For "Tax Payers" enlightenment is wish to state that the Commissioner of Agriculture receives \$2,500 per year salary, which is the amount he formerly received, and the amount he formerly received and the amount he will continue to receive during his term of office, as our Constitution and Appellate Court have specifically decreed that a state official's salary cannot be increased during his term of office.

Relative to "Tax Payers" charge that "to expect the school fund of any county to be benefitted by this act, would stretch the imagination almost to the point of breaking." I wish to state that the real purpose of this act was (1) to promote, advance, stimulate, and protect the sheep industry. (2) to protect the licensed dors, and (3) to dispose of the unlicensed and worthless cur, and while the school fund in a majority of the counties in the state will be benefitted by this act, yet the school rund in every county in this common vealth would receive greater benefits by co-operation on the part of the people in the carrying out of this law rather than by being retarded by so much kicking and complaining.

"Tax Payer" claims that a Garrard county farmer was told that \$10 was the limit he could receive ron grade sheep, and that he would have to wait a year to collect his money and then receive his pro rata of the leavings of the state and county officials.

Fection 27 of the act directs that the county clark after a claim for damage.

missioner of Agriculture gets out of this, and we have found what the county clerk gets out of this, and we have found what the man who owns sheep does not get out of this, etc." to which I reply that if the man who owns sheep does not protect that industry to the extent of seeing the law effectively enforced in his county, then he should not get anything out of it.

In conclusion, the voters of Kentuceffectively enforced in his county, then he should not get anything out of it.

In conclusion, the voters of Kentucsky elected me to the office of Commissioner of Agriculture to not only look after the agricultural interests of the state, but to enforce the laws under the control of the Department of Agriculture, bonding me in the sum of \$50,000 for faithful performance of duty, and requiring me to take an oath that I would perform those duties, and now because I am doing what not only the voters but the law directed me to do. "Tax Payer" is scattering his propaganda broadcast in such manner as to prejudice the mind of the public against the effort and attitude of the Commissioner of Agriculture in
